### Innovative/good practice: highlight implementation examples

### Focus Form C – Jury suggestion for sharing GOLD FORUM Event example

**Standard 2:** The high level of communication. The tobacco free policy is communicated very well as seen on the pictures in your presentation provided (e.g. page 11, 12).

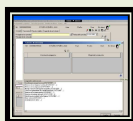

Smoking is prohibited at all our mental health units. Specific training geared towards mental health professionals is currently offered to enable psychiatric patients to confront smoking (Document 4.14)."

**Standard 4:**  
Best practice:

A good procedure for identifying smokers and e-cigarette users. ("The Andalusian Health Service's corporate care management computer system, known as Diraya Atención Hospitalaria (DAH, Diraya Hospital Care) has a data-gathering page enabling the registration of identified users as well as the diagnosis and registration of the status of their addiction to tobacco. Their needs are recorded in care plans (Document 4.1).")

It is excellent your hospital has developed, "within the framework of the Andalusia Integrated Mental Health Plan, a protocol aimed at helping mental health patients give up smoking (Document 4.13). Smoking is prohibited at all our mental health units. Specific training geared towards mental health professionals is currently offered to enable psychiatric patients to confront smoking (Document 4.14)."
